Standard 15 mm crimp pump,
brass actuator

05 — PACKAGING

FOLDING CARTON • VERRE TERRACOTTA BOARD
FOIL STAMP #FFFFFF
ACCENT #BF8260
SOFT-TOUCH MATT LAMINATE

04 — FEATURES

Silhouette. Base notes anchor the structure at 47% — the mass settles low and wide at 1.09 : 1, heavy through the shoulders.

Cross-section. Spice at 41% torques the section 36° from base to neck — a slow turn you read in the highlights.

Shoulder. Sillage is projected (69/100) — the shoulders flare 25% past the waist, pushing the form outward the way the scent fills a room.

Base. 14 h longevity sets the footprint: a full, planted base — the bottle is built to stay put, like the drydown (base spread 90%).

Glass mass. Eau de Parfum (15–20% oils) → 6.3 mm walls at 72% scale. Extrait logic: small, dense, jewel-like — material in place of volume.

Surface & tint. A quiet gloss skin; the tint blends the formula's families by weight. Spicy at 41% shears the ribbing diagonally up the height..
Decoration: banded with a gilt arabesque scroll, Murano-style.
